Difference between the old and new Christian Churches:
By Mrs. Wm. Tunke, late Miss Ogden, Author of Reasons for Joining the New Jerusalem Church, by a former member of the Episcopal Church, by a former member of the Episcopal Church, is a neat pamphlet of 32 pages, just issued by John Allen, 139 Nassau-st. It seems a plain and clear statement of the writer's faith and her reasons for it, with strictures on opposing views.

any other with which we are acquainted, is nearly ready, and will be published in the course of a few weeks by D. G. Johnson, 140 Nassau-st. On this Map all the recent Political changes throughout the World are composed to while the latest Discoveries of the British on the North Coast of America and by the American and French Exploring Expeditions toward the South Pole, are carefully indicated. Recent changes in China and India, with the steady march of Settlement and Civilization in Australasia, are set forth. The Lettering and Coloring of this Map are of a superior order, while among its embellishments are spirled views of London. Paris, Constantinople, Pekin, the Landing of Columbus in the New World, &c. &c. The Steel Plate on which this Map is engraved cost \$300 before a scratch was made on it, and the entire cost of the Work will hardly fall short of \$5,000.

The Southern mail this evening brought no news from the Army or from the progress of Santa Ana in Mexico. Many suppose our Army will have another battle with the Mexicans, which will take place at or near Monterey. I am not of the number. The live that extraordinary means were made by conspicuous friends of Santa Ana, in conjunction with the Polk Administration in this country, to get certain leading men in Mexico to go for the tyrant's restoration to power—that those means will be successful—and that the whole has been based upon an express under-tanding that peace should be restored between the two Republics forthwith, and that Mexico, under the new Government, should cede to us California. If this be so, then we need not look in the direction of Monterey for a battle between our Army and that of Mexico! It is quite likely the war will be all over by December next—and that its cost will be at least \$150,000,000! "Think of fast, Master Brooks!"

How New-York Co. Courts try Police Justices accused of offences against the public, let Thir Taiburn tell:

"How to Mark St.A DAy—The County Court sits almost daily and proceeds in the trial of Justice Drinker, by calling the roll of Judges and Aldermen, and adjourning again in the next day. The Judges of the Court of Common Peass and all the Aldermen of the City are members of this Court, and refereve each \$2 per day for every that they meet and answer to their names. A Judge of the Common Pleas receives \$2 a day for stilling on the Bench of his own Court, his colleagues at Chambers taking in on the average about \$30 a day as fees, which are divided between the three Judges. After they get through sitting on the Bench and taking fees for orders, Ac, they sit on the Oribber trial and each of them receives \$2 more. So with those of the Aldermen who sit in the Seesions, they are paid full price for the day at each of the Gourts. Each day that this County Court sits it costs the City about \$300. Would it not be cheaper to pay Justice Drinker two or three years' salary and give him leave of absence."

Licensing Lawyers.

This morning, Mr. Mann rose to move a reconsideration of the vote of Monday week by which Mr. Caooke and his legal friends contrived to place to record in the Constitution, a section, whereby the elector who may have voted for four Supreme Court Judges to administer the Law—two or more Legislators, a Governor and a Congressman to make Laws—and who is a free citizen of a Sovereign State is to be compelled next day, if he wishes to appoint a friend to attend to his private in terest, in a matter of \$100, before a County Judge, where he is plaintiff or defendant, to drug that friend before that Judge, to be examined as to his legal learning as to the two millions of rules and laws which it is pretended we must all ober, though we do not know one in one thousand of them, and the one half contradicts the other, and as to the falsehoods and factions by which millions of dollars are wrongilly wrong from the means of our Marchants, Farmers, Mechanics and Mannfacturers, to augment the funds of 4.000 Autorleys, Solicitors, Counselors and their dependants, who, under the pretext of adding Justice, levy from the citizens of New-York State a more enormous tribute than ever the Clergy of England or Rome demanded, under Royalty, for their religious services. That of those 4.000 there are many who want no monopoly I believe—so there were among the Clergy miny who wanted not church monopoly—America is free from the one, she will soon sweep away the other.

Mr. Mann, when moving a reconsideration, said that he did not see why lawyers ought to bave privileges defended to the control of the succession of the problem of the succession of the public of the formation, and other works in the mass of the public, Dr. Solomon Heine being our family physician, we, the understoned of the public of the familians of the public of the fa
